## OBJECTIVE

Seeking a dynamic and growth-oriented position in a reputable organization that values innovation and professional development, where I can contribute to impactful projects while enhancing my technical and analytical skills.

## SUMMARY

Experienced Frontend Developer with 1.6+ years of proven and hands-on experience in building web applications using the modern technologies like Next.js, React.js, JavaScript, TypeScript, Redux, Mobx, Material UI, HTML, CSS, and GraphQL. Proficient in developing reusable UI components with a strong emphasis on functional programming concepts. Demonstrated ability to collaborate closely with business analysts and understanding business requirements.

## SKILLS

**Languages:** JavaScript, TypeScript, HTML, CSS, Java.

**Technologies and Tools:** Next.js, React.js, Material UI, Tailwind CSS, Bootstrap, REST API, Redux Toolkit, Recoil, MobX, Node JS, Sanity.io, Strapi.io, GIT, JIRA, Express.js, MongoDB

## WORK EXPERIENCE

12/2022 - Present	Software Developer	Techouts
<ul style="list-style-type: none"><li>Experienced in JavaScript, familiar with the latest syntax i.e., <b>ES6</b> concepts, with a proficient understanding of <b>React JS, Next JS, Typescript, and Nodejs</b>.</li><li>Experienced in UI development technologies including <b>Next.js, React.js, HTML, CSS, Material UI, and API utilization</b>.</li><li>Developed code for user interfaces, encompassing interactions, <b>responsive layouts</b>, and styling to ensure an <b>optimal user experience</b>.</li><li>Proficient in <b>Agile/Scrum</b> methodology for effective product development.</li><li>Implemented <b>Reusable UI</b> components based on <b>Figma</b> designs and optimized network calls and <b>REST API</b> interactions.</li><li>Collaborated with other team members, functioning closely and collectively with Backend Developers and Solution Architects.</li></ul>
